

## Micromount Club Zoom Meeting Videos

Micromount Club Zoom meetings are virtual meetings held every other week on Zoom by an international, but informal group of micro-mineral enthusiasts. Notice of meetings are posted on Facebook on The Micromount Club group under the Events tab. There you can find a link to the Zoom meeting. Once a meeting has ended, you can view past meetings on the YouTube channel of Steve S (Steve Sorrell of Sorrell Publications), the Micromount Club facilitator and Zoom meeting moderator. Links to all Micromount Club Zoom Meeting videos are posted below. Note that there is often chatter and discussion for a few minutes as people join the Zoom meeting. Therefore, I have noted the time at which the presentation begins with each video link. Each presentations are about one hour long.

Enjoy!

Julian Gray, Focal Point Mineralogy

Co-chair, Georgia Mineral Society Micromount Section

### Presentations given in 2020

The first Micromount Club Zoom meeting was a social get together so there was no presentation. Micromount Club Zoom Meetings II and III weren't recorded due to technical issues and/or user error.

The Micromount Club Zoom Meeting IV

This meeting featured a presentation by Frank Ruelicke on pyrite.

The presentation begins at 12:50.

<https://www.youtube.com/watch?v=emWQxRUMkro>

The Micromount Club Zoom Meeting V

This meeting featured a presentation by Gerhard Brandstetter on minerals from Austrian volcanics.

The presentation starts at 1:20.

<https://www.youtube.com/watch?v=wSXQve1ny2o>

Micromount Club Zoom Meeting VI

This meeting was a presentation by Doug Merson on Summit Rock and Lemolo Lake, Oregon.

The presentation begins at 17:45.

<https://www.youtube.com/watch?v=65rl41F4Slg&t=1269s>

Micromount Club Zoom Meeting VII

Martin Stolworthy presents the Killham Mine, Cornwall, England.

The presentation begins at 15:00.

<https://www.youtube.com/watch?v=3Seaa4OEqhs>

Micromount Club Zoom Meeting VIII

Rick Turner presents on the minerals of Tolbachik, Kamchatka Peninsula, Russia.

The presentation begins immediately.

<https://www.youtube.com/watch?v=dWphnjgyMSI>

Micromount Club Zoom Meeting IX Was not recorded because of copyright issues

Micromount Club Zoom Meeting X Was not recorded because of technical issues

#### Micromount Club Zoom Meeting XI

Steve Rust presents the Minerals of the Frongoch Mine, Wales.

The presentation begins at 12:20.

<https://www.youtube.com/watch?v=YhefsYhoJhM&t=737s>

#### Micromount Club Zoom Meeting XII

Rod Martin from Auckland, New Zealand presents the minerals of Henderson's Quarry, Ngongataha, Rotorua, North Island, New Zealand.

The presentation begins at 10:35.

<https://www.youtube.com/watch?v=5KigvGpY-Dw>

#### The Micromount Club Zoom Meeting XIII

Where is the U in Lake Boga. A presentation on the uranium-bearing minerals from the Lake Boga granite quarry, Lake Boga, Victoria, Australia.

The presentation begins at 29:06.

<https://www.youtube.com/watch?v=JJsB8KVGwUw>

#### The Micromount Club Zoom Meeting XIV

Fossils Rocks and Minerals of Norfolk presented by Martin Stolworthy.

The presentation begins at 19:55.

<https://www.youtube.com/watch?v=36G962hmfZ8>

#### The Micromount Club Zoom Meeting XV

A presentation by Bruce Kelley on Nevada Micro Minerals.

The presentation begins at 16:15.

<https://www.youtube.com/watch?v=EXHyIjPp8t8>

#### The Micromount Club Zoom Meeting XVI

Mineral Rings, a presentation by Frank Ruehlicke.

The presentation begins at 15:15.

<https://www.youtube.com/watch?v=ErTj0vHau74&t=956s>

#### The Micromount Club Zoom Meeting XVII

Collecting the Northwest (Part 1) presented by Doug Merson. The introduction music chosen in light of the potentially disastrous wind conditions where Doug lives, that threatened to disrupt the presentation. Fortunately, this did not happen!

The presentation begins at 11:55.

<https://www.youtube.com/watch?v=ZgYS3Zk0Of0&t=723s>

#### The Micromount Club Zoom Meeting XVIII

Steve Rust presents on Mirolitic Minerals from the Isle of Skye (Scotland) Granites.

The presentation begins at 12:35.

<https://www.youtube.com/watch?v=2KmueeaQfNQ&t=758s>

#### The Micromount Club Zoom Meeting XIX

Collecting the Northwest (Part 2) presented by Doug Merson.

The presentation begins at 10:10.

<https://www.youtube.com/watch?v=O4LQWRoxS88>

## Presentations given in 2021

### Micromount Club Zoom Meeting 21-01

Minerals of the Clara Mine, Germany, presented by Jacques Feijen.  
The presentation begins at 1:15, although the introduction is pretty humorous.

<https://www.youtube.com/watch?v=kJsRMZt7uek>

### Micromount Club Zoom Meeting 21-02

Volcanic Eifel - Germany, presented by Henk Smeets. Henk takes us on a virtual mineralogical field trip through a number of mineral localities in the Eifel region. Best viewed full screen and in high definition.  
The presentation begins at 1:20.

[https://www.youtube.com/watch?v=D7nSKqre\\_7g](https://www.youtube.com/watch?v=D7nSKqre_7g)

### Micromount Club Zoom Meeting 21-03

The minerals of Somerset, Devon and Cornwall, presented by Martin Stolworthy.  
The presentation begins at 3:10.

<https://www.youtube.com/watch?v=nYWqFEYoKbo>

### Micromount Club Zoom Meeting 21-04

Smaller Localities across Eastern Canada, presented by Quintin Wight.  
The presentation begins at 3:30.

<https://www.youtube.com/watch?v=zy6kvk-Seoc>

### Micromount Club Zoom Meeting 21-05

The Mines of Lavrion, Greece, presented by Henk Smeets.  
The presentation begins at 3:55 (but you might want to listen to the Intro music on this one.)

<https://www.youtube.com/watch?v=dptdZtd1QAQ>

### Micromount Club Zoom Meeting 21-06 – Micro-Diamonds

My Global Collection of Micromineral Diamonds presented by Kathy Hrechka.  
The presentation begins at 3:52

[https://www.youtube.com/watch?v=JuEAe\\_7S-Ro](https://www.youtube.com/watch?v=JuEAe_7S-Ro)
